

Hi All

Please find attached the entry form for a new, different and interesting style of competition, to be held at TWEPC on April 7th.

Introducing the Combined Novelty Competition! A merging of obstacles used in Working Equitation, as well as variations of novelty and mounted games, plus water crossings, gates and other safe but fun challenges. This competition is open to all members of a pony club, and will be judged using the existing Ease Of Handling rules - used at our last LNZ Championships.

The day will start with a 9am guided course walk, including lots of time to explain how to ride each obstacle and ask any of your last minute questions.

Classes available are as follows

- Class One is for unmounted combinations, and is available for riding and non riding members, aimed at combinations that would like to do the course unmounted first.
- Class Two (Easy) will consist of approximately 10 simple obstacles, and is a great place to start for mounted combinations.
- Class Three (Intermediate) will consist of approximately 15 obstacles, including the ones used in Class One and Two, plus other, slightly more challenging ones.
- Class Four (Advanced) will consist of approximately 20 obstacles, including the ones used in Class One, Two and Three, plus other, more challenging obstacles, including small fences. Combinations in this class must have a graded performance card of any grade.

Combinations may be led or assisted throughout the day, however led or assisted riders are not eligible for Class Four.

Combinations already attending may enter additional classes on the day - so you could enter for Class One, then enter a mounted class or two if you are happy with how you went.

Please feel free to contact us with any questions, at twowellseandpc@gmail.com - or watch our Facebook page for FAQ's leading up to the event.

We'd love to see you on the day, to support a new, interesting and different activity.

Regards
TWEPC
